

freeVoice Fox FX810 Duo DECT Cordless

The cordless headset for professional applications

Our focus was on professional business users during the development of the Fox810 series. The high wearing comfort, maximum sound quality as well as the easy installation are the outstanding features of the freeVoice Fox FX810. And of course, the telephone conference function is an absolute must. Up to three further participants can join in a telephone conference. They enjoy carefree calls with a freedom of movement of up to 100 metres. The modern, high-quality design makes the freeVoice Fox810 very special.

Plug-and-play

Thanks to the easy installation and intuitive operation, the Fox810 can be effortlessly connected to any common telephone system.

Wearing comfort

The lightweight and ergonomic design guarantees a high wearing comfort. The adjustable headband as well as the soft and flexible wear pads ensure long-lasting yet relaxed talks

Sound quality

The integrated digital signal processors (DSP) ensure that freeVoice Fox offers authentic sounding calls. Sudden noise spikes are eliminated before they reach your ear.

Noise-cancelling microphone

The integrated filter reduces interfering background noises, such as can occur in an open-plan office. This means your message always comes across – with no interfering ambient noise.

Remote Call Control

All of the functions have been intuitively designed and arranged. Answering and ending a call as well as muting or volume control can be controlled directly on the headset.

Features and advantages

Headset FOX FX810B
