

freeVoice Nimbus 40

The freeVoice Nimbus offers you high-quality sound, even in noisy office environments. The generous range of up to ten metres allows you to make calls away from the workplace, giving you a high degree of flexibility. The lightweight headset does not become uncomfortable even after prolonged wear. The microphone is placed near the mouth and has a filter for background noise.

Flexible Bluetooth connection

Thanks to the Bluetooth connection, the headset can be used not only in the office, but also with any Bluetooth-enabled mobile device. When you leave the office, the Nimbus connects seamlessly to your mobile phone for easy, hands-free use.

Multipoint technology

The freeVoice Nimbus is a Bluetooth headset that can connect simultaneously to a mobile phone and a PC softphone (via the optional Bluetooth adapter). With the optional Bluetooth USB adapter, the Nimbus is compatible with a wide range of PC-based softphones, such as Aastra, Microsoft Lync, Cisco Softphone or Skype.

Technical features

Product type	Headset
Item no.	FBT040M
EAN-Nr.	7640162611824
Connection option	Bluetooth
Signal transmission	Wireless
Range	30 m
Call duration	40 h
Battery charging time	2 h
Scope of delivery	Base station, USB-C cable, manual
